

STUDENT CHAPTER BULLETIN

October 1, 2007

TO: All Active ISCET Student Chapters:

The purpose of this Bulletin is to ascertain the functionality of existing Chapters. I have talked with several of you, and find that there are varying degrees of organization existing today. That is to be anticipated, but it is essential that we understand your methods so that we can most appropriately formulate programs that will assist you.

Please answer the following questions by replying to this e-mail: You can either copy the questions and paste them into an e-mail reply, or edit this attachment in Word to contain the answers. If you desire just call me at 800-797-8009. I answer this until about 10:00 PM Central Time every night except Wednesdays.

- 1. Is your Chapter active?
IF SO:**
- 2. How many members does the Chapter have?**
- 3. Have you elected officers?**
- 4. Do you have activities such as visits to local electronic oriented businesses or build electronic projects or have arrangements for fun such as outings, dinners, etc.**
- 5. What would you like to see ISCET do to help your Chapter to accomplish its goals?**
- 6. What do you think of the outline attached for a program for your Chapter?**

Please reply to this request, if only to say that the Chapter no longer is valid, or that it has not been valid for a good while. We need to know where we are in the Student Chapter Program. I know that many of the Chapters are very active, and doing a fine job with their students.

Thanks.

**Ed Clingman
ISCET Administrator**
